

PREVENTIVE MAINTENANCE SYSTEM

CROSCO Galiot® - Computerized Maintenance Management System (CMMS)

o GALIOT® SOFTWARE

- Equipment data by maker and Type
- Maintenance requirements listing
- Maintenance records and equipment history
- Stock management (spare parts and material planning and requisitions)
- Equipment technical documentation management
- Equipment certification Management
- Organization, implementation and education

Equipment Condition Monitoring

o TERMOVISION (IR Thermography – Certified by ITC Internation, Level 1)

- Infra Red (IR) survey (electrical and mechanical systems and equipment)
- Thermograms analysis

o VIBRATION MONITORING

- Rotating equipment
- Bearings conditions
- Overall vibrations

Equipment Reliability Analysis and Diagnostic

Preventive Maintenance Strategy Building
