A MEMBER OF THE **UMA** GROUP

HÜTTE HBR 605 D TURBO

Hydraulic Drilling Rig

Drilling rig is designed for:

- exploratory drilling up to 150 m
- geotechnical drilling up to 30 m
- execution of micro piles up to dia. 300 mm
- geotechnical anchors up to dia. 220 mm
- execution of reinforced-concrete piles
- drilling vertical and horizontal boreholes and directional drilling
- drilling drainage boreholes

TECHNICAL DATA:

Year of manufacture: 1997

Drilling rig is automotive, on crawlers.

Mast length: 6300 mm

BOREHOLE DIMENSIONS:

Maximal depth: 150 m

Drilling diameters 64 - 406 mm

TRANSPORT DIMENSIONS:

Length: 8700 mm

Width: 2300 mm

Height: 2900 mm

Weight: 11000 kg

ENGINE:

Manufacturer: DEUTZ

Type: BF6L913 (diesel)

Power installed: 104 kW (142 HP)
